## The project

A bilingual company website bringing Korea-U.S. trade and AI marketing together. The website presents Korean cosmetics and beauty imports, USA agricultural exports led by almonds, digital services, a founder profile, and product-specific email inquiries.

**Project type:** Self-initiated company website. External client work and revenue results are not claimed.

# A concrete digital deliverable.

## What was created

- 01 Brand presentation and English-Korean content
- 02 Import-export directions and product categories
- 03 Responsive desktop and mobile layouts
- 04 Category-specific email inquiry links
- 05 Founder profile and company portfolio
